```c
#include<stdio.h>
#include<conio.h>
main()
{
    int n,i,fact=1;
    printf("enter a number for factorial");
    scanf("%d",&n);

for(i=1;i<=n;i++)
        {
        fact=fact*i;

        }printf("%d",fact);
getch();

}
```
